Club Meeting
Sunday April 27th 2014
1pm at our club parking area
Atlanta Motorama
at Atlanta Motor Speedway
President’s Message

I hope everyone is getting your cars ready for the Peach Blossom BOPC the first weekend in May!!

The April Meeting will be the last weekend in April and just one week before the BOPC. So time is short!!! Mike Walling has been working hard to make the April Meeting at the Atlanta Motor Speedway a lot of fun. You’ll be able to take your cars around the track!!

The Club has decided to have a vendor space at the BOPC with proceeds for the sales going to the Club. I have some donated parts that I will be bringing. I will also manage the space the first 2 hours (start to 11:00). So, if you have parts that you want out of your garage (and who doesn’t) and you want to donate them to the club, either bring them to me (my house in Marietta) or bring them (early) to the BOPC. If you bring them to the BOPC, please tag them with: 1. What the part is (ie ’68 A Body Transmission mount) -- 2. A price (we want to sell them, not bring them home). Any items not sold can be returned to you, if you put your name on them, and pickup after the awards ceremony.

The Club is also doing a Fund Raiser at our Club Tent during the BOPC for the Independence Fund. It’s an organization that provides tracked wheel chairs for wounded/disabled veterans. Our minimum goal is small ($400) but with the other GTOAA clubs also raising funds we’ll be able to make a difference in some Vet’s Life. Please consider donating during the show.

Looking forward to a Fun BOPC. Hope everyone has signed up for the Friday Night Bar-B-Q and Bluegrass. See you there!!

John Link

A message from our friends at the Dixie Buick Chapter-

**SMI Charity Car Show, May 17th, 7am—2pm**

**To support the Alzheimer’s Association**

Hi all,

My company (SMI), is hosting their first-ever-but-hopefully-annual Charity car show on May 17, in Carrollton. The proceeds will go to benefit the Alzheimer’s Association. For those who don’t know, SMI is a family-owned business that has been in Carrollton for over 40 years. They have a great tradition in helping various charities; in fact, we sponsor a different charity every quarter, and however much the employees raise the company matches 100%.

I would like to extend the invitation to all your clubs. Please contact me if you have any questions – I’m not the organizer, but can probably get answers for you.

Also, they are currently looking for volunteers to act as judges. If any of y’all are interested, or know of someone who would be, we’d greatly appreciate it.

Many thanks!

We have received an additional “Thank You” from St. Jude Children’s Hospital. St. Jude’s is one of the charities selected for 2014 at our Holiday Party. The others are Make-A-Wish Georgia, TACA Talking About Curing Autism, and the Autism Society.

Dear Friend,

Your loving gift of $250 to St. Jude Children’s Research Hospital means so much to children who are fighting for their lives. Children like Kaden...

Just weeks before his first day of kindergarten, 5-year-old Kaden started experiencing headaches and periods of vomiting. His mother, a nurse, had a feeling that something serious was to blame, so she called Kaden’s pediatrician and pushed for a CT scan.

The results of that scan showed a dangerous brain tumor called medulloblastoma.

Kaden’s mom said, “We were very scared and nervous.” However, a call with a local physician eased the worried family’s minds. “He said not to be worried. St. Jude is where you have to go,” his mom remembers. The scan was scheduled at 10 a.m., and by 4 p.m., the family was on a plane to Memphis.

Once here, Kaden had surgery to remove the tumor, but our doctors determined that the cancer had already spread to his spine -- making him an especially high-risk case.

This sweet little boy underwent radiation and high-dose chemotherapy to save his life. His mom says, “I think people know that St. Jude is life-changing, but until you’ve been here, it’s hard to explain. It’s a wonderful place. I feel like everyone here is our family.”

Families never receive a bill from St. Jude for treatment, travel, housing and food -- because all a family should worry about is helping their child live. And this is all because of thoughtful friends like you.

Thank you from the bottom of my heart for your generous gift. Your support gives hope to children battling cancer and other deadly diseases. God bless your good heart always.

For the children,

To Paint Or Not To Paint (or How To Hire A Stripper!)

By John Link

My Riviera had a 20 year old Earl Scheib (type) paint job. For you youngsters out there, Earl Scheib painted cars, with his own paint, for $29.95, all in 1 day. They didn’t remove chrome, etc, just scuff and paint in 1 day and for $29.95. But that’s another story.

My son had offered to paint my car for the last year but I was hesitant to spend the time and money on my “Driver”. I finally agreed it was time to bite the bullet and have him paint the Riviera. That meant I had to strip the chrome, etc. to get ready for a paint job. A pain but necessary. After checking the paint (grinding, etc.), my son and his Body Man decided I needed to strip the car down to bare metal to get proper adhesion.

Nice !!! Choices ??? Work for days and days sanding the Riv in my garage –dust, dust, and mess. Pay a shop to do the sanding (big bucks), take the car to a shop and have it Blasted. Soda blasted, Sand Blasted ??? The internet has had notices recently that Auto Paint manufacturers are not warranting paint on cars that have been soda blasted. Seems Soda Blasting affects paint adhesion. I had seen an advertisement for “Dustless Blasting” equipment on the internet. They show a car being stripped in less than an hour. No heated metal, a flash rust preventative after the job. Sounded good to me. I called a local “Dustless Blaster” down by the airport. They said Yes, they could do the job, at their shop, the following week. That would mean, a wrecker charge to deliver the car, no control over the job, a wrecker charge to get the car back, and they wanted $1000-$1,500 to do the job (never mind the relatively new vinyl top, so the top didn’t have to be done). They also stated there wasn’t a mobile Dustless Blasting in the Atlanta area.

Then, I remembered a flyer I’d gotten at a cruise for Emsan Dustless Blasting here in Marietta- 770-401-0321 www.emsanmobileblasting.com . I had actually referred a friend 8 months ago, who had his frame done at his workplace and was extremely happy. I called Emsan, they could do the job, at my house, in 2 days!!

Emsan came to my house on Friday and removed all the paint and body filler in just over 4 hours !!!! (see photos) No wrecker charges, I was able to see the work being done, help with the masking, cleaning the car after the job and making sure my car was completely dry to prevent more corrosion. And the cost was less than the Non-Mobile company wanted.

More good news is that the body panels are in great shape. The car is now ready for Primer (and Body work) IN ONE DAY and the price was right ! Now on to the body work and paint.

**Key Indy Initiatives**

**All Terrain Chair Initiative**

Countless injured Veterans who have lost their mobility can FINALLY get the chance to re-experience the outdoors with the help of these marvelous All Terrain Chairs. No longer must they be forever confined to the pavement! Fishing, hunting, going to the beach, and playing with the children in their own back yards is now possible - sweet independence!

**Rehabilitation Equipment Initiative**

We could only wish the government could provide all of our injured Veterans with the rehabilitation equipment they really need - but that is not the reality. The Indy Fund, with your help, purchases equipment which will provide Veterans with the maximum level of mobility and autonomy - whatever it takes to help our brave men and women return to a normal and independent life.

**Independence Center Initiative**

Veterans come home from service and things are not the same. Adjusting to civilian society after war is tough, and getting back in tune with family and friends can be overwhelming. They may suffer from PTSD, or be recovering from a critical, life-changing wound, such as the loss of one (or more) limbs or traumatic brain injury. They’re determined to work hard and “return to normalcy,” sometimes after months or longer at a military or VA hospital. They just want to go back to being a son or daughter, husband or wife, father or mother. They want to be self-reliant and truly INDEPENDENT. Our challenge is to provide a place where these Veterans can regain this independence.

The Indy Fund is in Phase 1 of building an Independence Center for these Veterans at Palm Key, near Ridgeland, SC. The rich and serene environment of this region on the salt marshes along the Broad River serves as the foundation for Center’s purpose in healing and supporting these severely injured Veterans as well as their Caregivers.

For a more detailed look at the chairs they custom make, go to www.independencefund.org and in the middle of the page at the top, click on the "Indy Services” link and take a look at some of the video, to see what we’re working to achieve.
CARS IN THE MOVIES
Interested in having your car used in movie making?
You can place your car in a registry at “movietimecars.com”. Some sites want you to pay for a listing but this site is free. Show your vehicle at no charge and maybe make a few dollars.
You could become famous, like Ed Bellair!!! His car was used in a film recently as was a car owned by a Dixie Buick Club member.

Beautiful & Drivable
Concourse Level
1966 GTO Convertible. A Candlelight Cream body, with Black top and Black interior with Bucket seats, a Full Console and black carpeting with floor mats is show ready. It’s got just about everything AND it all works. Complete history of car ownership and PHS Documentation available. A body off restoration was completed in 1992 when the car was converted to a numbers correct Tri powered 4-speed from the original 4 barrel automatic. The original engine, with 65,000 miles on it, was completely overhauled, bored out +.030 and a RAM AIR III cam installed by Lamar Weldon Automotive, a high performance engine specialist in Atlanta. He also completely rebuilt the M20 4 speed transmission which has a Hurst long throw shifter and upgraded the Safe-T-Track Posi track rear end to a 3.90 ratio in 1997. The car has 6842 mile since the 1992 engine overhaul. It has an HD Radiator with coolant recovery and when the A/C blows good cold air the radiator has never overheated during the Hotlanta summer cruises even with the top down.
